HireX — REST API Reference & Contract Specification

Document ID: `HXP-HANDOVER-07`
Platform Version: HireX V0 / Backend REST Services
Target Audience: Frontend Developers, Backend Engineers, Integration Engineers, QA Testers
Base URL (Local): `http://localhost:3001`
Base URL (Hosted Staging): `https://api.dev.hire.zobay.in`

---

1. Global Headers & Error Format

1.1 Authentication & Session Carrier

- **Cookie Authentication:** All authenticated requests rely on the HTTP-only cookie `better-auth.session_token` or bearer authorization headers where applicable.
- **Content-Type:** `application/json` (or `multipart/form-data` for file uploads).

1.2 Standard Error Response Payload

```
{
  "statusCode": 400,
  "message": "Cannot revert application to APPLIED stage",
  "error": "Bad Request",
  "timestamp": "2026-10-28T12:00:00.000Z",
  "path": "/applications/app-123/status"
}
```

---

2. Authentication & Identity Endpoints

2.1 Candidate & General Auth (`AuthController`)

- `POST /api/auth/sign-in/email`
  - **Body:** `{ "email": "candidate@example.com", "password": "Password123!" }`
  - **Returns:** User profile and sets session cookie.
- `POST /api/auth/sign-up/email`
  - **Body:** `{ "name": "Jane Doe", "email": "jane@example.com", "password": "Password123!" }`
  - **Returns:** `201 Created` with initialized candidate profile.
- `POST /api/auth/sign-out`

- **Returns:** Invalidation of session and clear-cookie header (`Max-Age=0`).

2.2 Recruiter Organization Signup (`RecruiterSignupController`)

- `POST /recruiters/signup`
  - **Body:** `{ "companyName": "Acme Inc", "name": "Recruiter Bob", "email": "bob@acme.com", "password": "Password123!" }`
  - **Returns:** Provisions `Company` tenant, `User` (role: `RECRUITER`), and `Recruiter` (role: `ADMIN`).

2.3 Interviewer Authentication (`InterviewerAuthController`)

- `POST /auth/interviewer/login`
  - **Body:** `{ "email": "interviewer@acme.com", "password": "Password123!", "rememberMe": true }`
  - **Returns:** Established interviewer session with extended 7-day TTL if `rememberMe` is enabled.
- `GET /auth/interviewer/invite?token=<TOKEN>`
  - **Returns:** Pre-filled invitation metadata: `{ "valid": true, "email": "...", "companyName": "..." }` .
- `POST /auth/interviewer/invite/accept`
  - **Body:** `{ "token": "...", "password": "Password123!", "name": "Devin Panelist" }`
  - **Returns:** Activates interviewer account and destroys the token.

---

3. Jobs & Dynamic Application Forms

3.1 Public Job Discovery (`JobsController`)

- `GET /jobs`
  - **Query:** `?search=frontend&location=bengaluru&workMode=remote&page=1&limit=20`
  - **Returns:** List of published jobs with company details, salary, and requirements.
- `GET /jobs/:id`
  - **Returns:** Single job posting details.

3.2 Dynamic Form Schema (`ApplicationFormController`)

- `GET /jobs/:id/application-form`
  - **Returns:**

```
{
  "sections": [
    {
      "id": "sec-1",
      "title": "Technical Qualifications",
      "questions": [
        {
          "id": "q-1",
          "type": "NUMBER",
          "label": "Years with React & Next.js",
          "required": true
        }
      ]
    }
  ]
}
```

- `POST /recruiters/jobs` (`JobsController`)
  - **Scope:** Recruiter Admin / Member
  - **Body:** Job details and nested `applicationForm` sections and questions schema.

---

4. Applications & State Machine Pipeline

4.1 Candidate Submission (`ApplicationsController`)

- `POST /applications`
  - **Scope:** Candidate
  - **Body:**

```
{
  "jobId": "job-123",
  "screeningAnswers": { "q-1": 5 },
  "resumeId": "res-456",
  "coverNote": "Excited for this position"
}
```

- `POST /public/guest-resume`
  - **Scope:** Public / Guest
  - **Body:** `multipart/form-data` with `file`, `name`, `email`, `phone`.
  - **Returns:** Creates guest candidate record and uploaded resume reference.

4.2 Pipeline Stage Transitions (`ApplicationsController`)

- `PATCH /applications/:id/status`
  - **Scope:** Recruiter

- **Body:** `{ "status": "SCREENING" | "INTERVIEW" | "OFFER_STAGE" | "DOCUMENT_VERIFICATION" | "HIRED" | "REJECTED" }`
- **Enforced Business Rules:**
  - Cannot revert to `APPLIED` once progressed.
  - Cannot advance to `OFFER_STAGE` if open interviews remain in `ASSIGNED` or `CONFIRMED`.
  - Cannot set status to `HIRED` unless all required documents are `VERIFIED`.

---

5. Interviews & Schedular (MeetX) Orchestration

5.1 Availability & Slot Generation

- `POST /interviews/availability` (`AvailabilityController`)
  - **Scope:** Interviewer
  - **Body:** `{ "dayOfWeek": 2, "startTime": "14:00", "endTime": "18:00", "timezone": "Asia/Kolkata", "isRecurring": true }`
- `POST /interviews/slots/generate` (`SlotsController`)
  - **Scope:** Recruiter
  - **Body:** `{ "interviewId": "int-123", "interviewerId": "usr-456", "durationMinutes": 60 }`
  - **Returns:** List of generated booking slots.

5.2 Atomic Slot Booking (`BookingController`)

- `POST /interviews/booking`
  - **Scope:** Candidate
  - **Body:** `{ "slotId": "slot-789" }`
  - **Returns:**

```
{
  "success": true,
  "meetingId": "mtg_sched_89123",
  "candidateJoinUrl": "https://dev.scheduler.zobay.in/join/candidate-xyz",
  "calendarEventId": "cal-123"
}
```

5.3 Scorecard Submission (`InterviewsController`)

- `POST /interviews/:id/feedback`
  - **Scope:** Interviewer
  - **Body:**

```
{
  "ratings": { "coding": 4, "communication": 5, "architecture": 4 },
  "culturalFitScore": 5,
  "feedback": "Strong algorithmic fundamentals. Great culture fit.",
  "recommendation": "HIRE"
}
```

- **Returns:** Saved `InterviewFeedback` record and marks interview `COMPLETED`.

---

6. Schedular (MeetX) Webhooks

- `POST /webhooks/schedular` (`SchedularWebhookController`)
  - **Auth:** HMAC SHA-256 Signature (`x-signature` header validated against `SCHEDULAR_WEBHOOK_SECRET`).
  - **Supported Events:**
    - `meeting.ended`: Automatically marks interview as `COMPLETED`.
    - `meeting.mom.ready`: Fetches transcripts and AI Minutes of Meeting, saving them to the interview record.

---

7. Offer Letters & Document Verification

7.1 Offer Generation (`OffersController`)

- `POST /recruiters/offers/generate`
  - **Scope:** Recruiter Admin
  - **Body:** `{ "applicationId": "app-123", "salary": "₹16 LPA", "startDate": "2026-11-15", "expiryDays": 7 }`
  - **Returns:** Generates PDF offer on Cloudflare R2, saves `Offer` (status: `EXTENDED`).

- `POST /candidate/offers/:id/accept`
  - **Scope:** Candidate
  - **Body:** `{ "signature": "Jane Doe" }`
  - **Returns:** Updates offer to `ACCEPTED`; automatically transitions application to `DOCUMENT_VERIFICATION`.

7.2 Document Compliance (`DocumentsController`)

- `POST /candidate/documents/upload`
  - **Scope:** Candidate
  - **Body:** `multipart/form-data` with files, `type` ("GOVERNMENT_ID"), `applicationId`.

    - **Returns:** Persists to Cloudflare R2, creates `Document` and `DocumentFile` records in `PENDING` status.

- `PATCH /recruiters/documents/:id/verify`
    - **Scope:** Recruiter
    - **Returns:** Sets status to `VERIFIED` with `verifiedAt` and `verifiedBy` audit stamps.

- `PATCH /recruiters/documents/:id/reject`
    - **Scope:** Recruiter
    - **Body:** `{ "reason": "Expired document" }`
    - **Returns:** Sets status to `REJECTED`. Re-upload by candidate resets status to `PENDING`.

---

8. Global Search & Syndication Feeds

8.1 Command Palette Search (`SearchController`)

- `GET /search?q=<QUERY>`
    - **Scope:** Authenticated (Role-scoped results)
    - **Candidate returns:** Matching open jobs and active applications.
    - **Recruiter returns:** Matching jobs, candidate names, and applicants.
    - **Interviewer returns:** Assigned interviews and candidate names.

8.2 External Aggregator XML Feeds (`FeedsController`)

- `GET /feeds/indeed-jobs.xml` — Indeed XML schema.
- `GET /feeds/linkedin-jobs.xml` — LinkedIn XML schema.
- `GET /feeds/naukri-jobs.xml` — Naukri XML schema.
