HireX — Repository Structure & Codebase Inventory

Document ID: `HXP-HANDOVER-14`
Platform Version: HireX V0 / Pre-Release Baseline
Target Audience: All Developers, Engineering Leadership, DevOps
Last Updated: October 2026

---

1. Top-Level Repository Architecture

HireX is organized as a multi-project workspace containing four core sub-projects:

```
HireX/
├── hirex-Backend/              # NestJS Central API Backend (Port: 3001)
├── hirex-employer-frontend/    # Next.js Recruiter & Employer Dashboard (Port: 3002)
├── hirex-frontend/             # Next.js Candidate Portal & CNAME Proxy (Port: 3000)
├── interviewer/                # Next.js Interviewer Workspace (Port: 3003)
├── docs/                       # Project Documentation & Architecture
│   └── project-handover/       # Complete Handover Documentation Suite
└── PRD_GAP_CLOSURE.md          # Implementation notes for PRD gap closure
```

---

2. Backend Inventory (`hirex-Backend`)

- **Runtime & Framework:** Node.js 20+, NestJS 10.x, TypeScript 5.x
- **ORM & Database:** Prisma ORM 5.x, PostgreSQL 15+
- **Entry Point:** `src/main.ts` (Application bootstrap, CORS configuration, cookie parser, validation pipe)
- **Root Module:** `src/app.module.ts`

2.1 Backend Controllers Catalog (31 Controllers)

```
src/
├── api-v1/jobs-v1.controller.ts
├── app.controller.ts
├── application-form/application-form.controller.ts
├── applications/applications.controller.ts
├── auth/auth.controller.ts
├── auth/interviewer-auth.controller.ts
├── auth/magic-link.controller.ts
├── auth/password-reset.controller.ts
├── candidates/candidate-auth.controller.ts
├── candidates/candidates.controller.ts
├── career-page/career-page.controller.ts
├── company/company.controller.ts
├── documents/documents.controller.ts
├── interviewer/interviewer-auth.controller.ts
├── interviewer/interviewer.controller.ts
├── interviews/availability.controller.ts
├── interviews/booking.controller.ts
├── interviews/interviews.controller.ts
├── interviews/slots.controller.ts
├── jobs/jobs.controller.ts
├── notifications/interviewer-notifications.controller.ts
├── notifications/notifications.controller.ts
├── recruiter/api-keys/api-keys.controller.ts
├── recruiter/integrations/feeds.controller.ts
├── recruiter/team/team.controller.ts
├── recruiters/integrations.controller.ts
├── recruiters/recruiter-signup.controller.ts
├── recruiters/recruiters.controller.ts
├── reports/reports.controller.ts
├── search/search.controller.ts
└── webhooks/schedular-webhook.controller.ts
```

2.2 Automated Test Files (45 Test Suites)

- **Unit Test Specs (`src/**/*.spec.ts`):** 34 suites (271 passing unit tests).
- **End-to-End Test Specs (`test/*.e2e-spec.ts`):** 11 suites covering contextual auth, concurrency, tenant isolation, feeds, and reports.

---

3. Employer Portal Inventory (`hirex-employer-frontend`)

- **Framework:** Next.js 14/15 App Router
- **Port:** 3002
- **Routes Catalog (`src/app/`):**
  - `/` — Landing redirect
  - `/login` , `/signup` , `/register` — Recruiter onboarding

- `/dashboard` — High-level recruitment metrics and recent applicants
- `/jobs` & `/jobs/new` — Requisition creation with custom form builder
- `/jobs/[id]` & `/jobs/[id]/application-form` — Job overview & form configuration
- `/applicants` & `/applicants/[applicationId]` — Candidate Kanban & stage progression
- `/interviews` — Scheduled interview rounds & scorecard summaries
- `/interviewers` & `/interviewers/invite` — Interviewer team management
- `/career-page` — Custom branding, hero editor, and CNAME domain settings
- `/reports` — Time-to-hire, stage conversion, and interviewer performance
- `/settings` & `/team` — Role-based access control and organization settings

---

4. Candidate Portal Inventory (`hirex-frontend`)

- **Framework:** Next.js 14/15 App Router
- **Port:** 3000
- **Reverse Proxy:** `src/proxy.ts` (intercepts custom company CNAME domains and rewrites paths)
- **Routes Catalog (`src/app/`):**
  - `/` & `/jobs` — Job discovery & keyword filtering
  - `/jobs/[id]` & `/jobs/[id]/apply` — Multi-step dynamic application wizard with autosave
  - `/candidate/applications` & `/candidate/applications/[id]` — Application status timeline
  - `/interviews` — Self-service calendar slot booking
  - `/candidate/documents` — Post-offer multi-file document compliance uploads
  - `/careers/[slug]` — Tenant-branded public career portal
  - `/login` , `/signup` , `/forgot-password` , `/reset-password` — Candidate auth

---

5. Interviewer Portal Inventory (`interviewer`)

- **Framework:** Next.js 14/15 App Router
- **Port:** 3003
- **Routes Catalog (`src/app/`):**
  - `/login` , `/register` , `/invite/accept` — Interviewer authentication & token redemption
  - `/dashboard` — Upcoming assigned sessions and Join Interview Call links
  - `/interviews` & `/interviews/[id]` — Session details and private recruiter briefings
  - `/interviews/[id]/feedback` — Structured scorecards & Cultural Fit evaluation
  - `/availability` — Weekly recurring available hours configuration
  - `/history` — Historical interview evaluations and decisions
  - `/profile` — Interviewer bio, title, timezone, and photo sharing preferences
