# HireX — Project Handover & Technical Documentation Suite

**Platform Version:** HireX V0 / Enterprise Multi-Tenant Recruitment Architecture
**Release Target:** October 2026 Production Baseline
**Document Index:** `docs/project-handover/README.md`

---

## 1. Welcome & Handover Purpose

Welcome to the **HireX Project Handover Suite**. This repository contains complete, verified technical and product documentation produced directly from source code analysis, database schemas, API controllers, and automated test execution across the HireX codebase.

This documentation serves as the single source of truth for:

- **Software Architects & Senior Developers** onboarding to the architecture.
- **Product Managers & Business Analysts** managing the roadmap and acceptance criteria.
- **Manual & Automation QA Testers** executing the complete test suite.
- **DevOps & Security Reviewers** managing deployments and infrastructure.

---

## 2. Recommended Reading Paths by Role

```
   ROLE-BASED READING RECOMMENDATIONS:

   ┌──────────────────────────────┐    ┌──────────────────────────────┐
┌──────────────────────────────┐
   │    Senior Developer /        │    │     Product Manager /        │    │      QA Engineer /
│
   │         Architect            │    │      Business Analyst        │    │        Tester
│
   ├──────────────────────────────┤    ├──────────────────────────────┤

## 3. Master Document Index

| # | Document File | Primary Focus | Key Audience |
|---|---|---|---|
| 00 | `00-EXECUTIVE-SUMMARY.md` | Platform mission, core value propositions, system health, and orientation | All Roles |
| 01 | `01-TEST-PLAN.md` | Test strategy, test levels, environments, entry/exit criteria, priorities | QA Leads & Testers |
| 02 | `02-TEST-CASES.md` | Comprehensive test repository: 80+ granular test cases across 10 modules | Manual & Automation QA |
| 03 | `03-TEST-EXECUTION-REPORT.md` | Observed test execution evidence: 34 suites passed, 271 unit tests passed, 0 errors | QA, Tech Leads, DevOps |
| 04 | `04-PRD.md` | Product Requirements Document: Personas, state machine, FRs with Given/When/Then | PMs, BAs, Developers |
| 05 | `05-TRD.md` | Technical Requirements Document: Architecture, tech stack, data contracts | Architects & Senior Devs |

| # | Document File | Primary Focus | Key Audience |
|---|---|---|---|
| 06 | `06-ARCHITECTURE-AND-FLOWS.md` | Sequence diagrams, state machines, dynamic form flows, MeetX sync, CNAME routing | All Developers |
| 07 | `07-API-REFERENCE.md` | REST API catalog (31 controllers), request/response schemas, error codes | Backend & Integration Devs |
| 08 | `08-DATABASE-REFERENCE.md` | PostgreSQL schema: 25 Prisma models, 13 enums, composite keys, cascade rules | Backend Devs & DBAs |
| 09 | `09-LOCAL-SETUP-AND-TROUBLESHOOTING.md` | Onboarding instructions for all 4 repos, seed commands, common error resolutions | New Developers & QA |
| 10 | `10-SECURITY-AND-ACCESS-CONTROL.md` | Multi-tenant isolation, session cookie partitioning (ADR-001), HMAC webhooks | Security & DevOps |
| 11 | `11-RELEASE-AND-DEPLOYMENT-GUIDE.md` | Build commands, containerization, migration rules, environment variables checklist | DevOps & Release Managers |
| 12 | `12-KNOWN-ISSUES-AND-OPEN-QUESTIONS.md` | Technical debt, vendor integration gaps (LinkedIn/Naukri direct APIs), open PM decisions | PMs & Tech Leads |
| 13 | `13-REQUIREMENT-TRACEABILITY.md` | Bidirectional Traceability Matrix: FR -> Source File -> Endpoint -> Test Case | QA Leads & PMs |
| 14 | `14-REPOSITORY-INVENTORY.md` | Directory tree, package dependencies, controller catalog, test inventory | New Developers |

---

# 4. Quick Environment Links & Seed Credentials

## Hosted Staging Environments

- **Candidate Portal:** `https://dev.candidate.hire.zobay.in`
- **Recruiter Dashboard:** `https://dev.recruiter.hire.zobay.in`
- **Interviewer Workspace:** `https://dev.interviewer.hire.zobay.in`
- **Backend REST API:** `https://api.dev.hire.zobay.in`

## Local Development Ports

- **Candidate Portal:** `http://localhost:3000`
- **Backend API:** `http://localhost:3001`

- **Recruiter Portal:** `http://localhost:3002`
- **Interviewer Portal:** `http://localhost:3003`

## Pre-Configured Test Credentials

- **Recruiter:** `recruiter@hirex.dev` / `Password123!`
- **Interviewer:** `rahul.sharma@hirex.dev` / `Password123!`
- **Candidate:** `rahul@hirex.dev` / `Password123!`
